The fantastic NEW revolving Sound Box!

Cash Price £ 69.95

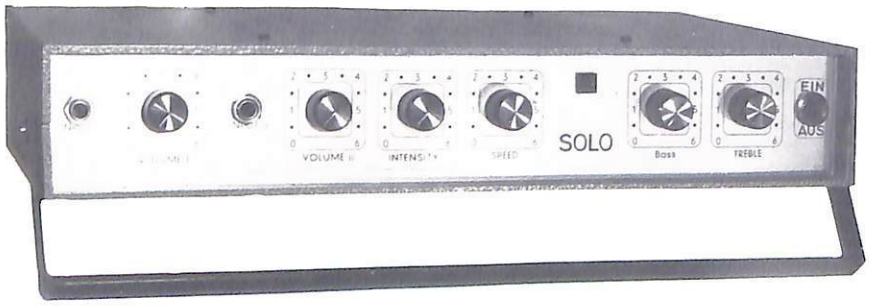
Rotor-Sound

This superb, easily portable unit produces the famous rotary speaker effect electronically, with the added avantages of a wide-ranging speed control and efficient intensity control with provision for a remote control footswitch which cuts the effect on or off and works independently from the incorporated on/off button. Carrying handle doubles as support for unit, strong hammertone finish construction, air vent, jack inputs, mains operated. Connected between instrument and amplifier. A "must" for the progressive player.

Cash Price £ 49.95

Reverb Unit

Strong, lightweight construction offering complete range of response through two separate Bass and Treble controls and a separate mixing control. Connected between instrument and amplifier and can be used in conjunction with other effects, i. e. wah-wah pedal. Hammertone finish, air vents, input and output (jack sockets), mains operated.



Cash Price £ 46.70

Solo Uni-Amp

25 watt universal amplifier for guitars, organs and other instruments. Two separate inputs with two independent volume controls, separate bass and treble controls. Effective tremolo on one input. Output for 4 ohm speaker, hammertone finish, air vent and carrying handle. Mains operated, fully transistorised.

Schaller

Foot Pedal

This independent foot volume control allows the player more freedom while using electric equipment. Sturdy all-metal, hammertoned finish, noiseless nylon rack gear for silent operation, jack sockets.

Cash Price £ 7.30

Wah-Wah

This pedal offers the choice of two different "Wah-Wah" effects. It has a change-over tone switch at the front of the unit and incorporates a button on/off switch at rear of pedal; this returns signal back to normal when effect not required. Jack sockets on input and output, robustly styled, battery operated.

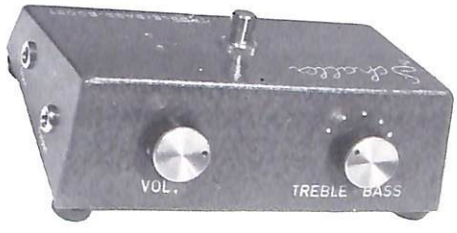
Cash Price £ 22.35

Treble Bass Boost

Powerful volume boosting unit which gives five different tone positions from bass to treble.

① Piercing treble response.
② Strong treble with some bass response.
③ Treble and bass equally boosted response.
④ "Heavy" bass with treble.
⑤ Heavy boosted bass response only.

On/off footswitch button, strong construction, jack inputs, battery operated.



Cash Price £ 16.80

Fuzz Unit

Super-effect accessory for the "pop", "beat" and "heavy" groups. Jack input and output, button foot control for "normal" and "fuzz". Insert between instrument and amplifier.
Depth and volume controls, robust casing, battery operated.

Cash Price £ 14.65
